**Excisions:** Not Applicable

**Reasons for excisions:**

Not Applicable

**Summary of reasons  
for classification:**

The computer image file printout entitled *147) Unallocated Clusters* is classified as:  
Objectionable.

The publication is classified as objectionable because it presents a visual record of the crime of bestiality. The image promotes and supports bestiality and the publication is therefore deemed objectionable under s3(2)(e) of the Films, Videos, and Publications Classification Act 1993.

The classification of this publication interferes with the freedom of expression as set out in s14 of the New Zealand Bill of Rights Act 1990. This outcome is consistent, however, with Parliament's intention in the Films, Videos, and Publications Classification Act 1993 to limit the availability of publications that promote and support bestiality.
